Form 70-22

Compliance Demonstration by Monitoring Control System Parameters or Operating Parameters of a Process

The monitoring of a control system parameter or a process parameter shall be acceptable as a compliance demonstration method provided that a correlation between the parameter value and the emission rate of a particular pollutant is established.

1	Facility name		
2	Stack ID (or flow diagram point identification(s))		
3	Emission source (identify and include equipment identification number)		
4	Pollutant(s) being monitored		
5	Description of the method of monitoring and correlation between the parameter value and the emission rate of the pollutant		
6	Compliance demonstration frequency (specify the frequency with which compliance will be demonstrated)		
7	Page number	Revision number	Date of revision
